HEADCOUNT

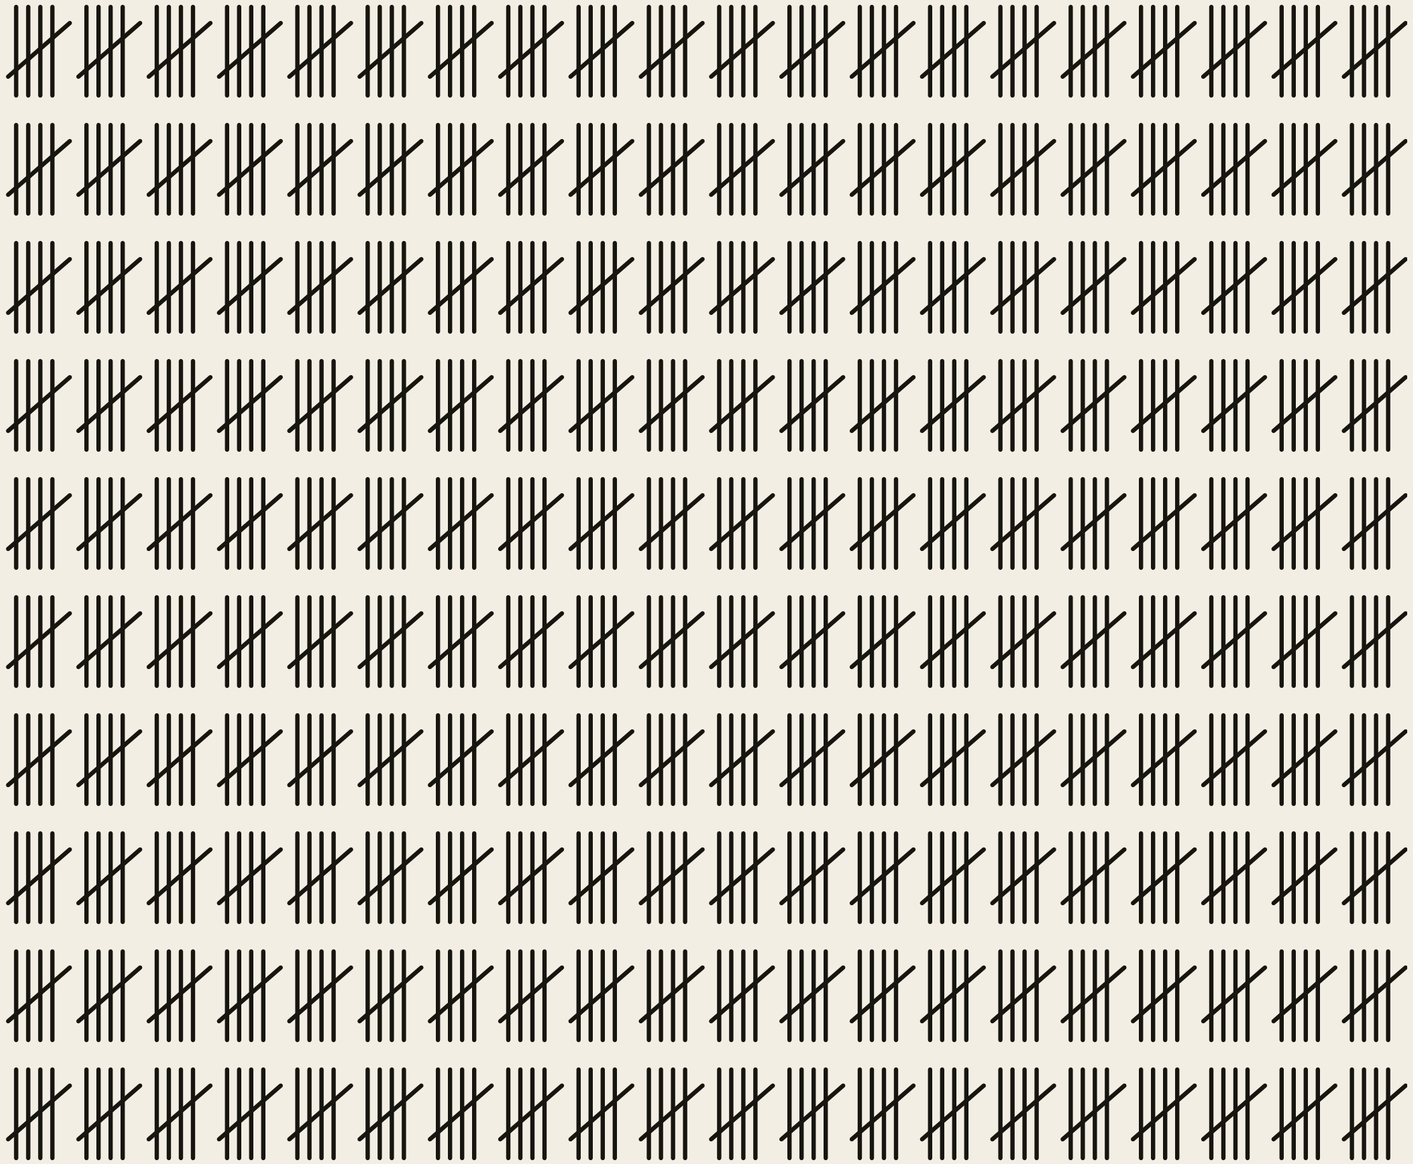

Crypto polls get farmed.

Polls where every answer comes from a different phone.

Solana Mobile changed the Seed Vault daily score to reward “natural Seed Vault Wallet use over activity manufactured to game the score”.

Solana Mobile, x.com/solanamobile/status/2090472369840382175

1,000 wallets = 1

The Seeker Genesis Token is one per phone. Headcount keys every answer to it, not to the wallet.

- [ ] A wallet
- [x] X or Telegram
- [ ] A trading app
- [ ] A game
- [ ] A browser
- [ ] Something else

Results unlock after you answer.

Costs about 0.004 SOL in fee and rent.

CAST ANSWER · +5 SKR ▸

Mark one. Cast it.

+5 SKR to the answerer.

Verify.
Record.
Pay.

HEADCOUNT

ONE TRANSACTION

Verify the SGT ..... `Ed25519`

Record the answer ..... `once`

`["answer", poll, identity]`

Pay the answerer ..... `5.00 SKR`

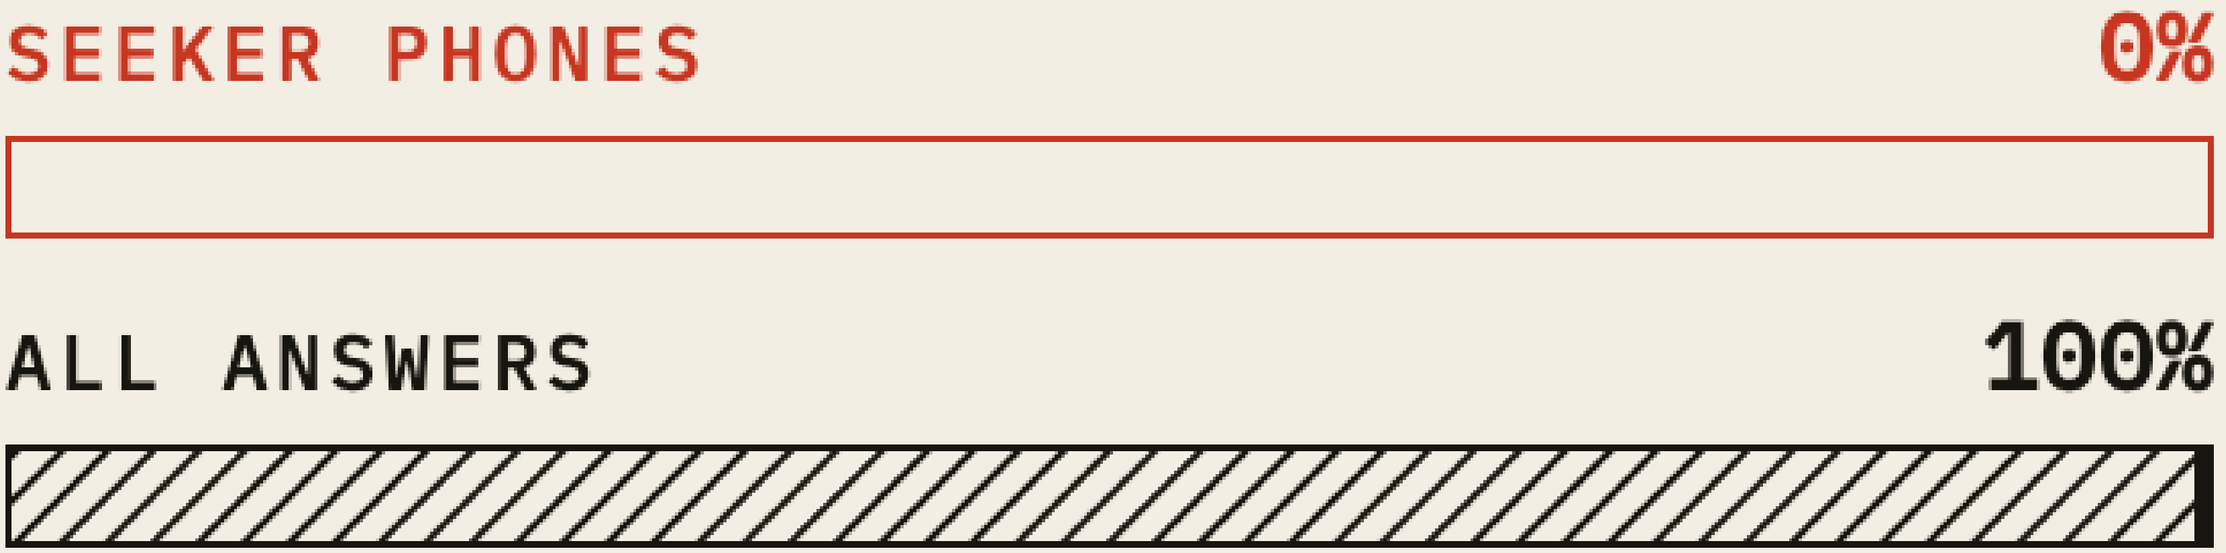

Total `1 transaction`

+5

SKR from the poll vault

Same poll. Two bars.

Hold it

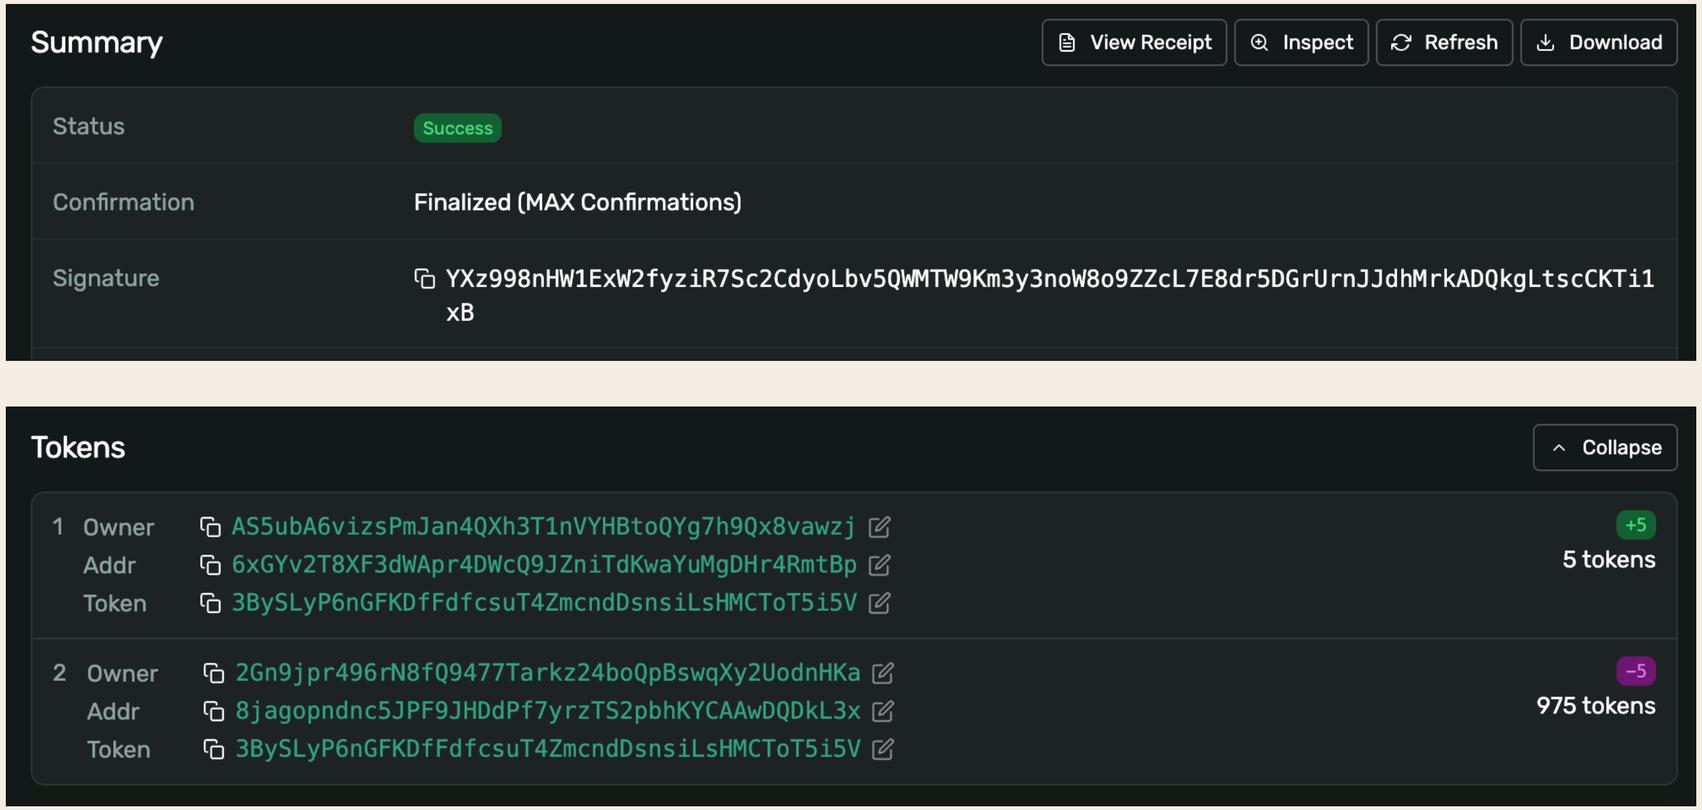

Red counts Seeker phones. Ink counts every answer.

“Build an app for seeker that gets users to spend their skr and buy more phones with skr”

toly, x.com/toly/status/2024123405012811967

Headcount is that loop. Projects fund polls in SKR. Seeker owners earn it every day they answer.

Live on devnet.

Tx YXz998nH…KTi1xB: signature verified, answer recorded, 5 SKR moved, one finalized transaction.
