SOLANA MOBILE · SEEKER · MOBILE WALLET ADAPTER

# Polls where every answer comes from a different phone.

Answer a poll on a Seeker, get paid in SKR. One phone, one voice.

THE PROBLEM

# Every open survey and airdrop in crypto gets farmed.

A wallet costs nothing. A thousand wallets cost nothing more. Any count of wallets is a count of whoever made the most.

## Solana Mobile changed the Seed Vault daily score to reward “natural Seed Vault Wallet use over activity manufactured to game the score”.

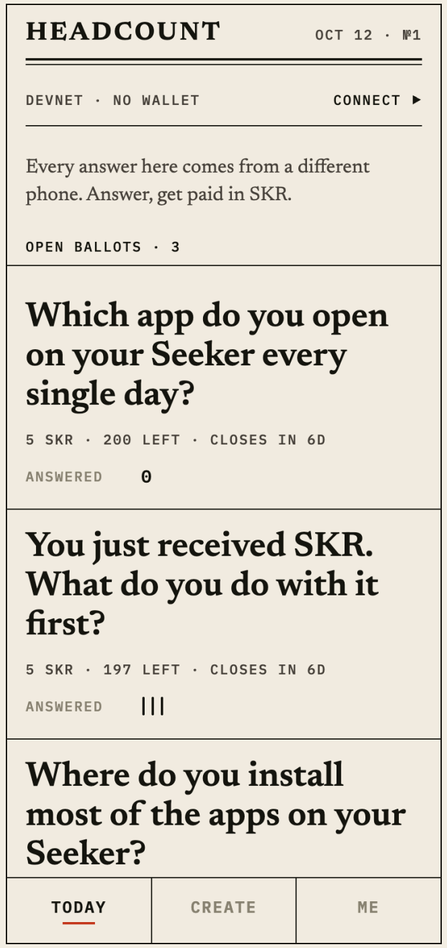

Solana Mobile, x.com/solanamobile/status/2090472369840382175

THE INSIGHT

# The Seeker Genesis Token is one per device.

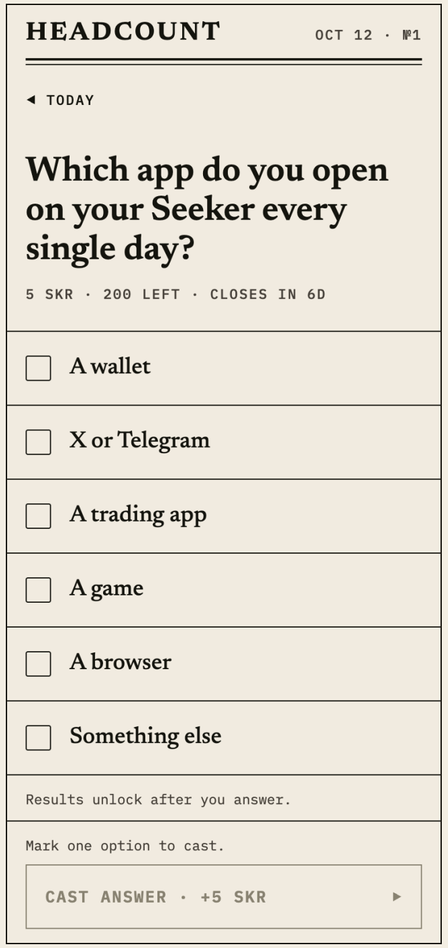

| | |
|---|---|
| KEY | Headcount keys each answer to the phone's SGT, not the wallet. |
| RESULT | A thousand wallets on one phone still count once. |
| SIGNAL | Every answer in a Seekers-only poll is one phone, one voice. |

## THE PRODUCT

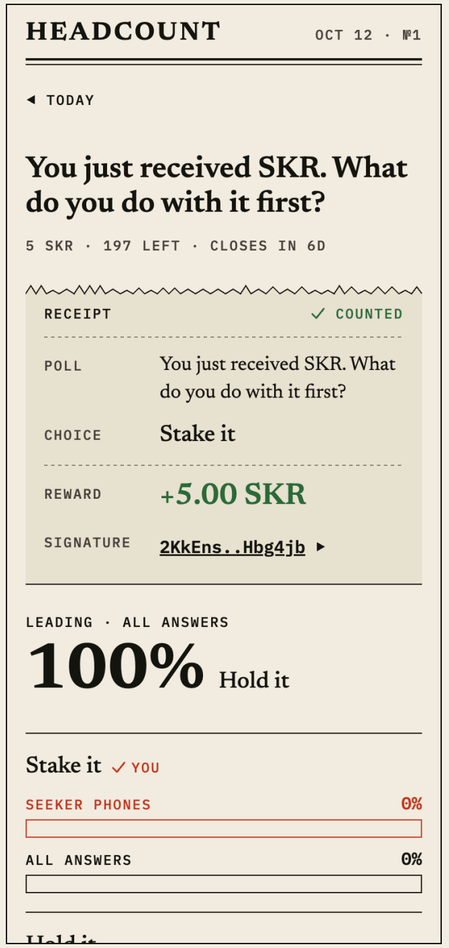

### Today

OPEN BALLOTS, PAID IN SKR

### Ballot

ONE CHOICE, ONE CAST BAR

### Receipt

COUNTED, +5.00 SKR, SIGNATURE

HOW IT WORKS

# One transaction verifies the phone and pays the answer.

1

## Wallet signs in

Mobile Wallet Adapter connects the wallet on the Seeker.

2

## Attestor reads mainnet

It finds the SGT and signs an Ed25519 attestation.

3

## One transaction verifies

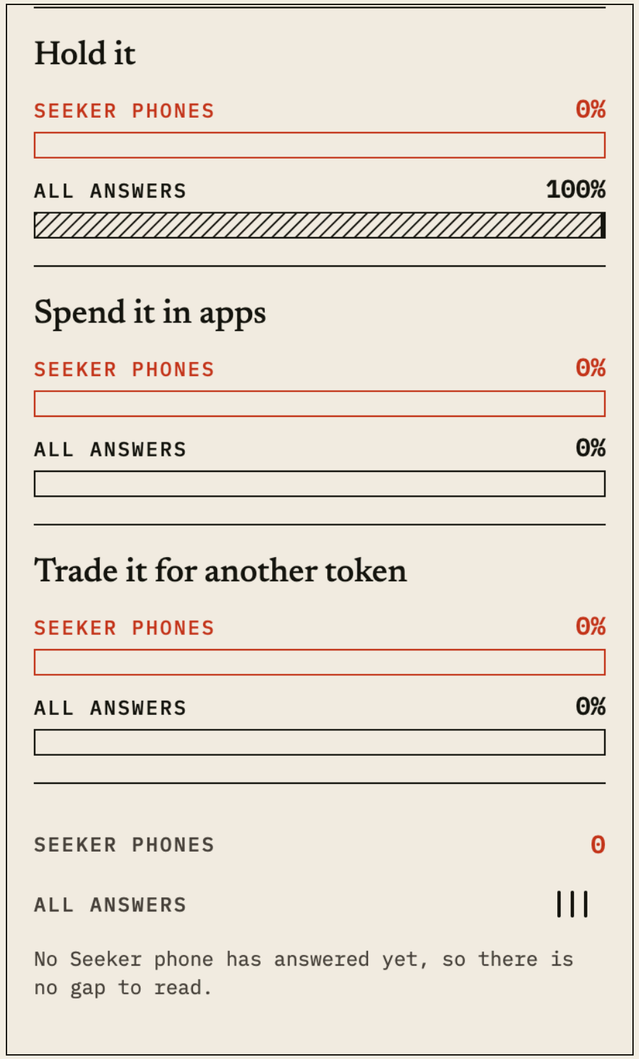

The program checks the attestation and records the answer at `["answer", poll, identity]`.

4

## Same instruction pays

The reward moves from the poll vault to the answerer.

THE BOT GAP

# Every option prints two bars.

| | |
|---|---|
| SEEKER PHONES | One answer per device, keyed to the SGT. |
| ALL ANSWERS | Every wallet that answered. |

The difference between the two is the signal the creator pays for.

THE SKR LOOP

# Projects spend SKR. Seeker owners earn it daily.

| | |
|---|---|
| SPEND | Projects fund polls in SKR to hear from real phones. |
| EARN | Seeker owners earn SKR every day they answer: a reason to open the phone daily. |

> “Build an app for seeker that gets users to spend their skr and buy more phones with skr”

PROOF IT RUNS

# Live on devnet, end to end.

| | |
|---|---|
| PROGRAM | `12kijt3UyT3TGnGbQn9Z4M9qe9uuHyc7ypWhLE57dkF3` |
| ATTESTOR | `headcount-attest.fly.dev` |
| OPEN POLL | A fresh wallet answered, the tally went 2 to 3, and it was paid exactly 5 SKR. |
| SEEKERS ONLY | The same wallet is rejected with error 6019. |
| TESTS | 15 program tests: tampered attestations, double answers, expiry, misdirected Ed25519. Mutation-tested. |

LAUNCH

# Ships to the Solana dApp Store with mainnet SKR.

| | |
|---|---|
| CHANNEL | Solana dApp Store, on the Seeker. |
| MONEY | Creators fund polls in real SKR. |
| SKR MINT | SKRbvo6Gf7GondiT3BbTfuRDPqLWei4j2Qy2NPGZhW3 |

# Headcount counts phones, not wallets.
